

Japan And South Korea

10 Nights 11 Days

Japan is an island country located in East Asia. It is bordered by the Sea of Japan to the west and the Pacific Ocean to the east, and spans more than 3,000 kilometers along the coast of the continent from the Sea of Okhotsk in the north to the East China Sea and Philippine Sea in the south.

South Korea, an East Asian nation on the southern half of the Korean Peninsula, shares one of the world's most heavily militarized borders with North Korea. It's equally known for its green, hilly countryside dotted with cherry trees and centuries-old Buddhist temples, plus its coastal fishing villages, sub-tropical islands and high-tech cities such as Seoul, the capital.
